

Day 17

Today I continued to work on the designing and structuring part of my webpage and made added new sections

Work Done:

- Built the Podcast Episodes section using a list of cards (with).
- Each podcast card includes:
 - Episode thumbnail and play icon.
 - Title and brief description.
 - Episode number and date.
- Designed the Newsletter Section using a form with an input field and subscribe button.
- Added accessibility attributes like alt for images.
- Worked on the footer layout, including:
 - Contact info (email, phone).
 - Social media links using Ionicons.
 - Copyright.

Challenges Overcome:

- Managing image and text alignment in cards.
- Structuring content for both readability and responsiveness.

Skills Applied:

HTML layout structuring, form handling, image embedding, section-based content organization.

Outcome:

By the end of Day 17, the entire HTML skeleton for the podcast site was completed, with all major sections present and organized.
